

SF₆ Gas Fitting/Filling Kit

Avoid lost time and additional costs from not having the right fitting on site when you need it. The 600F is an SF₆ fitting/filling kit, custom built to meet your particular needs.

SF₆ Recovery Kit

Complete SF₆ Gas Recovery Kit housed in a wheeled Pelican case system

Supplied complete with

- Manuals, instructions, charger, calibration certificates
- Vacuum/Pressure gauge. 0-20 Bar ABS
- Extech temp gauge
- 3/8 Ball valve
- CGA 590 Bottle fitting
- 2 off spanners
- Oxygen depletion meter
- Nitrogen regulator
- DN8 hose connectors
- Dilo inline filter
- 2 off 5m hoses (PTFE lined white)
- 2 off 2m hoses (PTFE lined white)
- 2 off 5m Vacuum hoses (clear)
- Gas grab
- Spare Particle filter
- Spare moisture filter

FEATURES

- Manufacturer approved fittings
- Leak tested fittings and hoses
- Hoses rated for full vacuum
- Low permeability hose systems
- Supplied with calibrated gauges
- Supplied with consumables and spares

SF₆ Circuit Breaker Fill Kit

Complete SF₆ Circuit Breaker Fill Kit housed in a wheeled Pelican case system

Supplied complete with

- Manuals, Calibration Certificates, documentation
- Digital pressure gauge
- Swagelok regulator
- DILO DN8 Tee adaptor
- DILO DN8 to Siemens test port fitting
- DILO DN8 to Parker female adaptor
- DILO DN8 to DILO DN20 adaptor
- DILO DN8 to ABB adaptor
- DILO DN8 to DN8 Hose connector
- DILO DN8 Ball valve
- Consumables (ABB O-ring grease Mobil 28, Siemens o-ring grease Vaseline, Swak PTFE thread seal).
- ABB 36 – DN20 50 Spanner
- 1-1/8 CGA – Dilo DN8 32 Spanner
- DILO DN8 to Mitsubishi adaptor
- SWAGELOK Hose 5 metres long, S-SERIES SILICONE
- SWAGELOK Hose 15 metres long, S-SERIES SILICONE
- Specific Customer solutions available on request
